GUARDS VIGILANT

Are Keeping Close Watch on the Two Men for Fear of Any Trouble.

(Special By Scripps-Mellae.) Jackson, Ky., May 29.—Contrary to expectations the night passed quietly and while the soldiers were on guard and a reserve in waiting they were not disturbed. The Gatling and Hotchkiss guns were held in readiness. Mountaineers Coming It is persistently rumored that the mountaineers are gathering and will make a decided effort to capture the Jackson jail and release Jett and White. Close watch will be kept over the prisoners. Artillery Ready The artillery is ready for instant service. Many strangers have arrived in town during the night. If an assault is made upon the jail the loss of life will be large and the mountaineers would be repulsed.

DORAN WILL SPEAK AT CAPITAL CITY

High School Student to Deliver Oration in State Contest Tomorrow Morning.

Harry Doran will represent the high school tomorrow morning at Madison in the state oratorical contest. He will deliver his oration on "The Great Pacificator," with which he won the Lovejoy medal in the home rhetorical contest that year. At ten o'clock in the morning the contest will take place in library hall, the day of the interscholastic meet being chosen for the event because of the students who will be present from all parts of the state and will be able to attend both the athletic and literary contests. When the state oratorical contest was organized last year it was in the form of a triangular league between the schools of Sparta, Beloit, and Janesville, but assurances have been received that many other schools will be represented tomorrow. The Daily Cardinal of the state university prophesies a hard-fought contest.

ORDERS FIELD GUNS FROM GERMAN MAKERS

American Manufacturers Too Busy to Supply War Department With Needed Ordnance.

Washington, May 29.—The war department some time ago ordered fifty three-inch field guns of the new design and type to be manufactured in Germany. These guns are now practically completed and Captain John W. Joyce of the ordnance department has been designated to receive them at Dusseldorf, Germany. A quantity of ammunition will be shipped at the same time. The reason for ordering these field guns from a German manufacturer was that the manufacturers in this country were too busy to fill the orders of the war department, only one out of twenty-seven firms responding to a circular asking proposals and this one wanting two years within which to make deliveries against seven months by the German firm. The arsenals of the United States also were overcrowded with work.

ENGLAND TAKES THREE ISLANDS

France Delays, and Loses Good Pacific Harbor as the Result.

Tahiti, May 16, via San Francisco, Cal., May 29.—Information received here confirms the rumor that three small islands near Pitcairn were seized by England recently. It appears they were regarded by English Consul Simons at Tahiti as valuable, anticipating the completion of the Panama canal. He was under the impression that sooner or later the French government might annex them, and so, without waiting for definite instructions from the government, sent Mr. McCoy, the English resident on Pitcairn island, to take over the three islands for the British government. Later an English man of war, at Mr. Simons' request, went from Tahiti to the new possessions and completed certain formalities. When the action was reviewed by the British foreign office the consul received full approbation for his forethought. Ducie Island has a safe harbor and Elizabeth Island has many attractive features. There are no inhabitants in the group. Colonial troops are to be withdrawn from Tahiti in the near future. They are considered to be wholly unnecessary to this colony and are a great burden upon the treasury.

The automobile struck a pile of stones by the side of the road and was overturned. Those in the vehicle were thrown in various directions and all were injured. MEMORIAL DAY COMES TOMORROW

JANESVILLE HAS MANY BRAVE
SOLDIERS BURIED HERE.

GRAVES WILL BE DECORATED

A List of the Heroes of the War of
the Rebellion, Resting in
Oak Hill and Mt. Olivet.

Saturday our dead soldiers are
nearer to us than any other period of
the year. Tomorrow kind and lov-
ing hands will decorate the graves of
the departed soldiers of the past and
murmur a prayer for their souls' rest.
Soldiers of 61, of 98 of 1812
and of the Mexican war will all re-
ceive homage due them in their silent
resting places where lie their mortal
remains while their souls have long
ago departed to the throne of their
Master.

Fitting Exercises.
It is just and fitting that we should
devote one day of this busy world to
the dead who helped to make us one
people now and forever. Men who
gave up their lives that peace might
reign in this country. Men who
laid down the best they had to offer
at the call of their country's needs.
One day separate from the rest and
significant above them all as a day
in which the wheels of the world
should stop and all heads be bowed
in silent prayer for the dead heroes.

Heroes of the Past.
Decorations day is a beautiful tri-
bute to the soldier. All over this coun-
try tomorrow the dead are to be hon-
ored as they deserve. Here in Janes-
ville the day is especially significant
and is being properly observed.
Rock county and Janesville gave the
best of their sons to the cause. The
citizens bravely marched out at the
beat of the drum and many failed to
return. The ranks of the survivors
are yearly becoming thinner and
thinner but these old boys in blue
will march with as firm a
spirit if not as firm a tread as they
did when they went forth into battle
forty years ago.

The Dead.
In the cemeteries about the city and
through the county these dead sol-
diers will receive recognition
for their services. Their graves are
being decorated by comrades and
beautiful women. In the grave yard
where peace rests the following are
sleeping their last sleep waiting
until the reveille sounds to call them
to another life eternal.

Some of the Grand Army men of
Janesville who have gone to their final
resting place in the last few years
and who were well known to Janes-
ville people were C. E. Bowles, ser-
gent in the 22nd Wisconsin Vol. reg-

CITY DEATH ROLL

Death of Mrs. S. D. Conant

The many friends of Mrs. S. D.
Conant will be amazed and surprised
to learn of her death which occurred
at half past nine o'clock this morn-
ing at her home in the First Ward.
Mrs. Conant had been in feeble
health for some time, but was able
to be about the house until Monday
last. She was not a stranger to
suffering, and in the hours of final
conflict, the same spirit of courage
and patience that had crowned her
life sustained her.

She entered the valley peacefully
supported by a faith that was abid-
ing, and comforted by a hope that
had been a life long permission.

Mrs. Conant's maiden name was
Louisa Ann Pearson. She was born
at Irasburg, Vermont, March 14, 1827
where she resided until 1848 when
she was married to Samuel D. Conant.
A few years later she came
west with her husband, and located
on a farm near the city.

Mrs. Conant later engaged in busi-
ness and for the past 35 years, the
Conant home at 165 North High
street, has been noted for hospitality
and good cheer. Mr. Conant had
been connected with the Methodist
church from childhood and her pres-
ence will be missed from Court street
church where she had been a mem-
ber since the church was organized.

A woman of many rare graces of
Christian character, she won the
hearts of all who knew her. Quiet
and unassuming, she wrought faith-
fully in the vineyard, living to a pur-
pose and accomplishing much. Her
life was a benediction, not only in
the home, but in the community,
and her death will be sincerely
mourned.

Beside a husband, who has journ-
eyed with her for more than fifty
years, a son Theodore, of St. Louis,
and a daughter, Mrs. Henry Paville
of La Crosse are left to mourn, also
Mrs. C. A. Hunt, of this city, who
was a sister to Mrs. Conant. Ar-
rangements for the funeral are not
yet completed. They will be an-
nounced tomorrow.

Mrs. Ann Torney
After an illness of six months,
Mrs. Ann Torney died yesterday
morning at 11:45, at her home in
this city, 23 St. Mary's avenue. De-
ceased was 82 years old and has lived
in Janesville for 31 years. She
leaves two sisters and two brothers;
Mrs. Rose Elliott, Jane Hudson, John
McQuade, and James McQuade. The
funeral will be held from St. Mary's
church Saturday morning at 9 o'clock.
Mrs. Driscoll, her aunt, is here from
Chicago to attend the funeral.

Hans Tollefsrud
Hans C. Tollefsrud, a former Rock
county pioneer, died May 17, at Rusk,
Pocahontas county, Iowa. He was
born January 1, 1822, in Norway, and
came to America in 1844, settling in
the northwest corner of the town of
Newark. He farmed in Newark until
1878, when he sold out and
moved to Iowa. He was well and
favorably known in Newark and in
and about Orfordville. Since his
residence in the west he has made
frequent visits back to the old home
and friends in Rock county. In
Newark he was township treasurer
and supervisor many years, during
the '60's. He leaves an aged widow,
two sons and one daughter, all resid-
ing in Pocahontas county.

FORMAL OPENING OF THE GOLF CLUB

TOMORROW THE SEASON'S PLAY-
ING WILL BE STARTED.

GIVE A SUPPER AND DANCE

Lunch Will Be Served at Noon, and
an Elaborate Supper at
Six O'clock.

Tomorrow is the formal opening of
the Janesville Golf club for the
coming summer. Owing to the rain
of the past week all the improve-
ments planned for the grounds have
not been completed, but the course
is or will be in good condition for
the players tomorrow.

Hard at Work
Today and all tomorrow morning
the two mowers owned by the club
will be in active use and it is thought
that the grass will be sufficiently
gone over so that it will not make
a serious impediment to the enthu-
siasts who will devote the day to the
game. The greens are in most ex-
cellent form and the rain has drained
off the course with the exception of
two or three places so that the play-
ing will be good.

Serves Lunches
At noon Steward Moulton will be
ready to serve luncheon to those
who go out for the morning play
and in the evening he will serve the
formal club supper celebrating the
opening of the present golf season.
It will be an innovation which the
club members of the club will ap-
preciate and with all the care and
trouble of the supper taken away
the afternoon and evening will be
much more enjoyable than it has
been in the past for the ladies to
spend the afternoon at the club
grounds.

Many Preparations
Mr. Moulton has made many pre-
parations to serve all who come and
in the future will be ready on a
few hours' notice to supply the needs
of the most fastidious appetite with
all the delicacies of the market. The
Vander porch shades, the gift of Don
Farnsworth, will soon be in place and
then with dainty tables laid on the
porch with full view of the course
the Janesville golf club will be a pop-
ular place on warm summer evenings.

An Experiment
This is an experiment and one that
should receive the hearty co-operation
of the members. It will be an
endless amount of enjoyment to the
parties who from time to time go
to the links for an evening and with
Mr. Moulton in charge of the house
the wear and tear that has destroyed
so much property in the past will
all be done away with. Mr. Moulton's
skill as a chef is well known and
he should be given an opportunity
to display it.

The Games
There will, of course, be several
matches between individual players
in the morning but the sweepstake
handicap tournament open to all
members will begin at sharp two.
Each player will be handicapped by
Hogey, which on these links is 41
and the handicap committee is mak-
ing a careful handicap list for all
entries so that all will have an equal
chance.

Supper and Dance
As six o'clock supper will be
served and an informal hop will be
held. The extensive plans for an
elaborate dance with the orchestra
from the Myers Grand opera house
has been postponed until some time
later in the season, but good music
will be furnished.

Meet Cars
The golf club wagon will meet all
cars tomorrow and parties so desir-
ing can get home that way also.

BASEBALL GAME FOR WOODMENS' DAY

The Committee Having Charge of
the Day Announce the Games
as Sure.

The Modern Woodmen have pleased
to announce that they have engaged
the Rockford and Bloomington base
ball teams to play here June 4th, pic-
nic day. These teams are consid-
ered the best in the "Three-Eye"
league and the game will be a cham-
pionship contest, being transferred
from the Rockford grounds for this
particular occasion. Visitors to
Janesville on the picnic day would
bear in mind that the baseball game
is one of the big features. Two
Wisconsin boys are playing with the
Rockford team. They are Hess, of
La Crosse, a shortstop, and pitcher
Killian, of Racine. Hess is said to
be the first shortstop in the league.
Killian helped Rockford win the pen-
nant last year. This is the first
league game seen in Janesville for
years.

IN CIRCUIT COURT

Because James M. Barrows, plain-
tiff in a damage suit against the Chi-
cago, Milwaukee and St. Paul road
was confined in an Iowa prison for
horse stealing and was unable to be
present, the action was dismissed.

Settlement was reached out of
court in the case of W. H. Cox
against the estate of George Lockner.
By consent of the parties the suit
of Wesley Garlock and others against
George Lockner was placed on the
June calendar.

Testimony was taken in the suit
for divorce brought by Andrew Lar-
son against Martha Larson.

RELAY RACE FOR HIGH SCHOOLS

President Liger Plans New Feat-
ure for A. A. U. Meet at
State Fair.

President Liger of the Amateur
Athletic union has decided to add an
open high school relay race to the
program at the annual outdoor cham-
pionships of the union to be held in
connection with the state fair in Mil-
waukee, on Sept. 10 and 11.

This is an innovation for the meet,
as heretofore no high school event
has been placed upon the program
at a national championship meet. Mr.
Liger expects to have entries from
all parts of the country for this race.
Several eastern schools have prom-
ised to have their men here for the
race. Chicago will undoubtedly be
represented by several teams, and
the Milwaukee schools will in all prob-
ability also be entered in the race.

The race will be run on the first
day of the meet. All athletes who
competed for schools this spring will
be eligible for the race, and this will
enable each school to have its
strongest team in the field.

BALL GAMES AS NOW PLANNED

Local Teams About the City Are Now
Matched for Saturday and
Sunday Games.

The Viney Colts and the Shady
nine will cross bats at the Janesville
ball park, Saturday at 9 a. m. The
batters for the Viney Colts are Wm.
Rahr and G. Viney. The hitters for
the Shady nine will be Dewitt
Quickley and D. Avery.

Sunday afternoon there will be a
game between the Monterey
and the Fourth Ward Bul-
ldogs. Charles Cronin will pitch
for the Spring Brook boys and Geo.
Cronin will catch. James Heffron
is captain of the Fourth ward team,
John Devon and John Hall are pitch-
er and catcher.

Eugene Olin, Ben Millman and
Harry Mead are working on the night
shift at the Porch Shade factory.

The Adjustable Stage Co., of this
city has received four carloads of
patent painters' ladders and staging.
These work on a new principle and
it is claimed that with them two
painters can do the work of three,
working with the old method. By
their use a space 24 feet in width
can be painted without changing the
staging.

An Animal Story For Little Folks AT THE Barnyard Fowls' Picnic

The Widow Duck accepted the in-
vitation of Mr. Rooster to go with him to
the annual picnic of the barnyard
fowls, and when the day arrived they
strutted down the road to the picnic
grounds and made a very striking ap-
pearance indeed. The widow had on
her bonnet dyed black, with the
strings tied in a graceful bow at her
throat and the ends dangling down in
front. Mr. Rooster wore the very latest
style of clothes and a high silk hat and
carried a cane. They were much ad-
mired and felt quite proud of them-
selves.

But while they were all gathered
about the long table covers spread on
the grass and eating the good things
there the widow turned to the Brahma
hen next to her and asked, "Will you
pass me an oyster sandwich?"

The Brahma hen was so much inter-
ested in talking to the Cochon China

felt quite proud of themselves. The
pullet that she did not hear the re-
quest, so the widow decided to help
herself to the sandwich. She leaned
over to get it. The ends of her bon-
net strings dipped into the red lemon-
ade and immediately the black dye be-
gan to come off and discolor the drink.
Mr. Rooster leaned over to see what
was the matter, and his high hat fell
into the butter. He reached for his
head covering and one foot slipped in-
to the gooseberry pie and he tumbled
forward over the potato salad.

The widow caught him by the coat
tails to pull him out of the mess, and
in doing so upset the milk pitcher over
herself and got the red pepper in her
eyes.

When order was finally restored Mr.
Rooster and the widow were the most
horrible looking objects that ever at-
tended a barnyard picnic, and as they
slipped away from the crowd the tur-
key gobblers could not control them-
selves and burst into a roar of laugh-
ter.—Pittsburg Dispatch.

...Forty Years Ago...

Janesville Daily Gazette, Friday, May 29, 1863.—There is pleasure in listening to good music, and greater pleasure in relieving suffering. Go to the soldiers' concert tonight and enjoy both.

Ship Canal Around Niagara Falls.—The Hon. D. C. Littlejohn addressed the New York chamber of commerce, on Monday, in favor of the building of a ship canal around Niagara Falls, from Lake Ontario to Lake Erie.

The prize steamer Adela is about to sail from the Brooklyn navy yard. She has a new style of paddle-wheels which it is said enable her to make eighteen miles an hour. Her engines are very powerful, and, but, for a mere accident, she would have escaped from the steamer that captured her. She is believed to be the fastest steamer in the navy.

The report of the capture of Vicksburg which we published last even-

ing, on the authority of a dispatch received at Chicago, turns out to be untrue. After diligent endeavor to fathom the matter, we are satisfied that the report is based upon mere rumor and is not reliable.

There are three companies from this city in the army before Vicksburg. Two in the 33rd regiment, one in the 8th, and the twelfth battery. We have not heard from either of our companies since the 7th inst. The anxiety among their friends to hear from them is very great.

The rebel sympathizers were landed in Memphis and sent thence in ambulances and wagons, guarded by cavalry, to Holly Springs, Miss., a distance of eighty miles. The accommodations there were of the scantiest description, and the present condition of central Mississippi, will offer few attractions to these involuntary tourists.

SELL NEGROES INTO BONDAGE

BRUTAL TREATMENT OF BLACKS

Negress Fails to Perform Her Allotted Task and is Given 100 Lashes and Tied to Tree So That Toes Just Touch the Ground.

Montgomery, Ala., May 29.—The investigation into the enforced slavery of negroes in this state developed one death from ill treatment, and the arrest of an agent who is accused of plotting to sell negroes into peonage.

Every indication points to the exposure of a powerful and wealthy organization of men who have for years carried on their slave trade in absolute security.

The government agents declare they will not stop until every man concerned has been punished according to the gravity of his offense.

Lash a Negress.

The investigation shows facts that are serious and horrifying. Witnesses before the federal grand jury have testified in one case that death resulted from the punishment accorded a negro woman who was held in servitude on one of the farms. This woman, accused of being rebellious and because she could not pile for burning the brush cut by a dozen ax men, she was laid across a log and given 100 lashes. Still showing a rebellious spirit, her hands were tied and the rope thrown over the limb of a tree and pulled up so as to leave it barely possible for her toes to reach the ground. The woman died two days later.

Many Slated for Arrest.

It is believed that fully fifteen arrests will result from the investigation and some of them will be prominent citizens of east Alabama. The investigation is causing widespread interest, and because of its possible political effect in the north there is much anxiety among the better element, who frown down upon even the suggestion of peonage.

Witnesses testify that on the Pace farm in Coosa county there is a regular stockade where prisoners are kept, and in many instances, when they have become rebellious the whip has been used and the prisoners placed in irons at night, the same as is done in the regular prisons. The Coosa farm is not a state prison, and state officials had no knowledge of its existence until recently, when an investigation of the matter was asked for by some of the citizens of the locality and ordered by the government.

Peons on the Farms.

Many of the state and county convicts in Alabama are leased to large farmers or to parties operating other industries, but the state, in a manner, retains supervision over these, employing special commissioners to investigate and see that humane treatment is given the convicts. It is plainly evident that the parties charged with peonage derived that idea from the state system of leasing, using ignorant negroes to carry out their scheme.

No date has yet been fixed for a trial of any of the persons indicted, but it is expected that some of them will be set for the present term of court.

The secret service is in constant communication with Washington and Chief Wilkie's men are using all their resources to make a complete cleanup of the entire state.

GOOD PLACE FOR WU TING-FANG

Imperial Edict Makes Him Member of Chinese Foreign Office.

Peking, May 29.—An imperial edict appoints Wu Ting-fang, former Chinese minister at Washington, to be a member of the foreign office. His rank will be below that of the five officials designated in the protocol. The appointment practically creates a new office.

Amazons Aid Insurgents.

Vienna, May 28.—Die Zeit prints a report from Uskub, Macedonia, of fierce fighting between Turkish troops and insurgents near the village of Bateh. A large number of women carried arms for the insurgents.

Gold in Central Australia.

"Hills of gold" are reported to have been discovered at Arltunga, in Central Australia.

RIVER IS RISING AT DES MOINES

MANY ARE RESCUED BY BOATS

Sudden Rise in Cedar River Drives Residents to the Upper Floors of the Houses, Whence They Are Removed By Volunteer Life Savers.

Des Moines, Ia., May 29.—The Des Moines river Thursday rose to twenty-one feet above low water mark, which is close to the mark of last year. All of the lowlands are flooded and about 1,000 people have been driven from their homes.

The levees are in better condition, and therefore the damage will not be as great as it was last year, although the loss will run up into the thousands. Two spans of the new \$55,000 Melan arch bridge over the river on Sixth avenue were carried away.

Water May Go Higher. Reports from up the river are not encouraging and the indications are that the water will go higher. A rise of another foot will endanger a number of bridges and flood a large territory. The levees are being closely watched and gangs of men are kept busy repairing all breaks.

The racoon is keeping pace with the Des Moines, and has devastated many square miles of territory in the southwest portion of the state.

At Cedar Falls the Cedar river rose suddenly during the night, so that a large number of persons had to be rescued in boats from upper floors. Middle river, the Little Sioux, and the Mishabota are the highest in their history.

Flood at Topeka. Topeka, Kas., May 29.—The Kansas river at this point is 16-13 feet above official low water mark and rising steadily. The water is spreading out over the city park, flooding the settlement known as "Little Russia," and several houses in that territory have been abandoned. The city railway bridge is endangered.

The Union Pacific has moved no trains on its line between this city and Manhattan since Tuesday. Between here and Kansas City the track is submerged in three places, and at Salina the water is so high that trains can neither enter nor leave the city.

Track Under Water. The Rock Island tracks are under water in the central Kansas districts. Washouts are reported at several places on the Santa Fe.

On the Missouri Pacific no trains have been run on the central branch for several days.

Ed Briggs, a rural mail carrier, and Ed Helstrom attempted to cross a small stream near McPherson to-night and were drowned. Leo Wells of Emporia was drowned there to-day in the Cottonwood river.

Land Is Submerged.

Beatrice, Neb., May 29.—The flood situation is again bad. It is raining and the river is reported to be higher at Crete than it was last year during the record-breaking floods. The Union Pacific tracks are still under water below here. The passenger train which went south Tuesday morning and which was the last train over the line is still tied up. The Burlington's Nebraska City passenger got lost somewhere east of here and failed to get in. Much land is submerged and the loss of crops will be great.

Long Is Contented.

Rockland, Mass., May 29.—"I am glad I am not a rich man. I would not exchange my freedom, home life and content of heart for the wealth of a Morgan or a Carnegie," said John D. Long at the Rockland Commercial club banquet.

Cats Were Electrocutted.

The town of Winchester, Mass., is now almost entirely bereft of cats. The superintendent of the state fowl hatchery, finding that the animals wrought havoc among his poultry, fixed up wires and at night ran a powerful electric current through them. During the past two years over 20 cats have been electrocuted.

Missourians Use Water.

The Jackson County Judge vouches for this story: "Allen McCurdy's horse fell into a cistern Sunday afternoon. He telephoned for the fire department; water was turned into the cistern and the animal was floated to the top and taken out with no trouble at all."

Broke

Down With Nervous Prostration.

Confined to Bed. Doctors Failed,

But Dr. Miles' Nervine Cured Permanently.

"Some six years ago I completely broke down from evangelistic work. I suffered from nervous prostration and stomach trouble and was confined to my bed and room for months. While I had a good physician as this city affords he failed to pull me out, and I tried many remedies and they were so hard on my stomach that I could not take them. At last I found Dr. Miles' Nervine. Ah, that was a nail in a sure place and enabled me to cry out 'Eureka.' I was soon able to be out and at work. I consider Dr. Miles' Nervine the thing for nerve and stomach trouble. I also use in my family most of Dr. Miles' Medicines, as household remedies."—Rev. Geo. W. Draper, Danville, Ill.

"About a year ago I failed in health and my case was said to be nervous derangement and heart trouble. My stomach was also affected and I suffered from a variety of symptoms such as wind on the stomach, shortness of breath, smothering spells, pain around the heart and left shoulder. My ankles were frequently swollen and my face was often feverish. There were little puffs under my eyes at times and I had headache almost constantly. I wrote to you for advice and in addition to general directions as to taking care of myself you prescribed Restorative Nervine, Heart Cure and Nerve and Liver Pills. I will state that my complete and permanent return to health followed."—Miss Josephine Kern, Galena, Ill.

Ever have a "low down" pain in the back?

In the "small" right over the hips? That's the home of backache. It's caused by sick kidneys. That's why Doan's Kidney Pills cure it.

Mr. E. Dillenbeck of 120 Milton avenue, retired farmer, says: "My wife was troubled with kidney complaint for four or five years and complained of pains in the small of the back in the region of the kidneys. The symptoms all indicated that the kidneys were deranged and the doctors who treated her said that those organs caused the disturbance. As she did not get any better we thought Doan's Kidney Pills might give her relief, on procuring them at the People's Drug Store, I had her use the remedy. I did for her all that could be expected. HONEST LETTERS

That Leave No Doubt That

Paine's Celery Compound Has Again and Again Cured After Physicians Have Failed.

For years men and women in every rank and walk of life have been sounding the praises of Paine's Celery Compound and telling of its victories over diseases and death. Those who were most heavily burdened with disease, victims of suffering, pronounced incurable by doctors, and who stood on the brink of the grave are the people who most gratefully remember Prof. Phelps, of Dartmouth College, the eminent physician, and scientist who discovered Paine's Celery Compound the medicine that never fails to conquer blood disease dyspepsia rheumatism, neuralgia, liver and kidney troubles. Mr. F. Marion Sykes, of Cronley, N. C., happily rescued from a complication of dangerous ailments, long standing dyspepsia, muscular pains, and after result of typhoid fever—nervousness, weakness, watery blood and sluggish circulation, gratefully and thankfully writes for the benefit of thousands of men and women who suffer today.

Mr. Sykes says:

"For many years I suffered with dyspepsia. All that I ate did me no good, and I could find nothing that would give me relief. Last year I was taken with a pain in my leg that ran from my hip to the end of my toes. I had a good doctor as I could find in Wilmington, but he only gave me relief for a while. I was taken with typhoid fever and my family and friends had given up all hope. A friend of mine, Capt. alter Taft, advised me to try Paine's Celery Compound, as I was so nervous I could not stand alone. I began the use of the wonderful medicine and before I had taken half a bottle I felt like a new man. I have now used two bottles and am today a well man and feel better than I have for ten years. I thank my God for the use of this great and marvelous Compound."

WANTON WASTE

The Milwaukee News contains the following very sensible editorial on the recent destruction of property, by the Pennsylvania railway company. The arguments advanced are full of common sense.
Upon order of President Cassatt, of the Pennsylvania railway company a million dollars worth of property, belonging to the Western Union Telegraph company has been destroyed. The Western Union's contract with the Pennsylvania company for the use of its right of way expired several months ago and it was ordered to remove the equipment. An appeal was made to the United States court and an injunction secured restraining the Pennsylvania company from interfering with the Western Union's property. Last Friday the court of appeals dissolved the injunction and immediately thereafter, large gangs of men were distributed along the railway company's right of way and the work of destruction began. Before nightfall 40,000 poles had been chopped down, and 14,000 miles of wire had been dumped into the fields adjacent to the railway tracks. The poles were gathered and burned. The wire has been made worthless. The Pennsylvania company acted within the law. It had a legal right to remove the property of the Western Union company which was a trespasser.
In a civilized state, government falls short of its function when it permits the wanton destruction of property. The destruction of a million dollars worth of property by the Pennsylvania railway company had the sanction of the law. The mere fact that it was sanctioned by the law made no less odious than had there been a statute or order prohibiting it. The real offense was in the destruction of useful property, property that had taken the labor of many men to create. Immediately this property was destroyed, the Pennsylvania company began replacing it. Obviously the law is inadequate when it permits such folly. Instead of permitting the Pennsylvania company to destroy the property, the courts should have authority to assess the property, and compel the Pennsylvania railway to purchase it at an assessed value.
The deliberate destruction of property is more indefensible than its destruction by a mob. A mob does not think. It does not deliberate. It is ruled by passion and fury. Yet had a mob destroyed the property of the Western Union Telegraph Company, the country would have been horrified. Troops would have been hastened from all parts of the country. The press would have been frantic in its demands for the protection of property. There would be no hesitation to employ whatever means at hand to suppress the mob. It would not matter that the means might not have the sanction of the law. It would not matter that hundreds of lives might be sacrificed. Yet no protest was made against the wanton destruction of this property by gangs of men under the direction of the president of a rival corporation. The courts acquiesced, the law approved and the press was silent. No one was disturbed. "Property rights" were vindicated, but property itself was sacrificed.

VALUE OF IMPORTS

Imports of manufacturers materials into the United States in the fiscal year, which ends with next month, will be by far, the largest in the history of our importations, and will amount to nearly or quite \$500,000,000. Manufacturers materials will form about 48 per cent of the imports of the fiscal year. The ten months figures in the Treasury Bu-

reau of Statistics, just completed, show that manufacturers materials formed 47 1/2 per cent of the imports for the ten months, and 49.77 per cent, or practically one-half of those of the latest available month, April while in March, they formed 49.06 per cent. Beyond doubt, the total importation of manufacturers materials in the fiscal year 1903 will by far exceed that of any preceding year. The fiscal year, 1902 was the banner year, prior to the current year, its total being 415 million dollars; while the highest figure ever reached prior to 1902 was in 1900, when the total was 330 millions. A comparison of the prospective figures of nearly or quite \$500,000,000 in the fiscal year about to end, with those of preceding years is interesting. The total of manufacturers materials imported in the last two months was in round terms, 91 million dollars, and those of the ten months ending with April were \$410,608,866. Should the figures of May and June equal those of March and April, it would bring the total imports of manufacturers materials for the fiscal year above the \$500,000,000 line. Comparing this with preceding years it may be said that the total for 1902 was 415 millions, for 1900 380 millions; 1899, 263 millions; 1880, 233 millions; 1870 120 millions, and 1860, 93 million dollars. The share which manufacturers materials form of the total, as already indicated, will be about 48 per cent of the total imports of the present fiscal year. In 1900 it was, in round terms, 46 per cent; in 1890 34 per cent; in 1880 37 per cent; in 1870; 28 and in 1860 25 per cent.

RUSSIAN PROBLEM

Russia is today confronted by one of the most complex problems that any nation has faced since the Spaniards expelled the Moors and all their wealth from Spain centuries ago. Spain sank from a first class power among the nations of Europe into a second rate kingdom from that time on. It was at the zenith of its glory until the cruel mandate was passed which made the richest portion of its citizens outcasts upon the face of the earth, and drove from its shores their wealth and thrift. Russia today is doing a similar act. It is driving from its cities the Jews, Jews who have the money of Russia who are the money lenders, the money savers. It is making these people homeless wanderers. It is driving old men from the homes of their childhood into the world to find a new resting place for their aching bones. It is breaking up families, and reducing to almost penury, the rich men of yesterday. The world looks on. The world does not approve but diplomacy does not allow them to make more than a feeble protest.

It is not the Czar who is doing this. It is not the Little Father who has ordered this awful sacrifice of human lives but the cunning of his ministers who are behind it. It is a question to those acquainted with the intrigues of the European courts whether the Czar himself knows of the atrocities that have been committed. It is a question if he ever will realize just what has gone on ostensively in his name and by his order. Russia is great. Russia is powerful. Russia is grasping, but it would look as if she had overstepped the mark this time, and had played the wrong card. To expell the Jews means to expell the rich men of the country. Thrifty, saving even to usury for loans, these people have given to Russia, more real market value than she appreciates. Her loans of the past years have all come from Jewish Bankers in Berlin, Paris and London. These bankers are looking for investment, and have been amply secured by the Russian securities, but they will cease to even accept that when their fellow countrymen are driven out and are killed and slaughtered by police and mobs, without a word of protest from the government. Russia is making a mistake. Perhaps when too late she will realize it. Ever a purse proud nation. Ever grasping and seeking for more territories and more subjects; she is driving out the shrews of its war power. It is not always the soldier who wins the battles but it is the tax payer who stays home and pays the salaries, and raises the crops to nourish the soldier that helps. This the Jew has done, and if driven out, a mighty source of revenue will be stricken from the list and the peasant class will be made to suffer the more. Russia conquered Poland and has kept it under its iron heel ever since. Oppression and subjection is a part of the Russian policy and the present instance is no surprise to those who have watched the grasping country in the past.

The Shamrock third is about to sail for this country to try and lie that cup. Thus far the American yachtsmen have had a rivet in the cup and have not even allowed it to tremble, still no one can help admiring the bull dog persistency of the Irishman who has a boat built in Scotland, and sailed by an English skipper, in trying to take it back home for his own.

Saturday should be a lesson day to every soldier's child or grandchild of what is meant to be a soldier in the stormy days of 61.

So Jett, the murderer is really to stand trial. If this be true, and he is convicted for his crime there is some hope for the wilds of Kentucky after all.

If these sensational disclosures continue to come from Washington, it will be a question of who to think is honest. The drag net of Payne is out, and is far-reaching.

Turkish soldiers are shooting for the sake of shooting at poor unfortunates who are fleeing from the persecutions of the Turks.

Kansas City railroad officials have taken the initiative in the talk of strike of freight handlers and have turned off all the discontented men employed.

Dogs seem to be the principal article of possession of a number of families, and if they were taxed as the city charter provides for the Ward, revenues would be increased and the dogs lessened.

Now that talk has been started for new bridges, various engineering firms have sent their representatives to the city to see how strong a separation the city will stand from its money.

Think of Chicago laundry being sent to Janesville to be washed.

Now the "Chinks" come out with a statement that they have formed a union and must have union prices hereafter.

One by one Janesville is losing its teachers to towns who appreciate their worth more than we do here at home.

JURY LET GO THIS MORNING

JUDGE DUNWIDDIE DISMISSED PETIT JURORS TODAY.

LANG-HERN CASE ON TRIAL

Suit for Recovery of Wages Up in the Circuit Court—June Term Begins Monday.

Judge B. F. Dunwiddie this morning dismissed the petit jury, with the exception of the twelve jurors empaneled to hear the case of John Lang against Arthur Hern. The latter case is being heard in the circuit court rooms. The suit is for the recovery of wages, which were not paid on the ground that Lang did not work the length of time agreed upon. Lang claims that Hern promised to pay him for the period that he worked and it is over the existence of the promise that the difficulty arose. The case was given to the jury at three o'clock this afternoon. After remaining out until late yesterday afternoon the foreman of the jury empaneled in the Tolles damage suit against the town of Center reported that there was no likelihood of reaching an agreement, and Judge Dunwiddie discharged the jury.

On Monday the June term of the circuit court begins, and all cases on the bar calendar for the February term must be cleaned up before that time or else be held over until a later term. A number of cases will meet with the latter fate.

HIS SEARCH IN VAIN.

BY HARRY PAIN.

The millionaire had made up his mind. In his letter-case, a delicate confection of lapidary, cloth of gold, and diamonds, he placed a bank note of \$1,000. With this in his pocket, he entered his carriage and drove off to the club.

He was a man of eccentric disposition, generous, estimating highly certain merits which do not usually receive recognition and loving to reward them whenever he found them. That thousand-pound note in his pocket awaited a recipient who would show enough self-respect and self-restraint to avoid making a certain remark.

At the door of the club he met a well-known king's counsel.

"Good-morning," said the millionaire. "Summer's about over, I'm afraid."

"Over? Why, it never began," said the famous barrister. And in so saying he lost the sum of \$1,000. A spasm of pain passed over the millionaire's face. This was the kind of thing that hurt him.

The purely and unpretendingly obvious never hurt him. If on the sultriest day in July a man said to him: "Very hot, isn't it?" he would agree and feel no resentment whatever. But if on that same hot day one said blithely: "Well, can you keep yourself warm?" the spirit of murder awoke in his heart. The purely obvious, necessary and unpretentious did not hurt; but the obvious attempt to escape the obvious lacerated and maddened him.

In the reading-room of the club he encountered that eminent ecclesiastic, the bishop of Burragoola, who greeted him.

"Summer's about over," said the millionaire.

"So some one was saying to me the other day," said the bishop, mellifluously. "Do you know what my answer was?"

"No," said the millionaire, fearing the worst.

"I said: 'And when did the summer start?' There's some point in that when you come to think over it."

The millionaire groaned in spirit, and picked up the Times newspaper.

"I wonder," the bishop said, "if I could interest you in one of our native industries, the making of very finely plaited—"

"No," said the millionaire. "A minute ago you might with ease have interested me to the tune of \$1,000. But the opportunity has gone. On the whole, I think I will be going, too. Sorry to be mysterious. I will explain it all to you one of these days."

The bishop gazed after him in blank amazement. The millionaire was reputedly very eccentric, but this morning he seemed to be going beyond eccentricity.

The millionaire stood in the hall now, and gazed blankly at the tape machine; he observed that Arlonga Concessions had been one-fifth, which meant another \$2,000 for him; it did not interest him in the least. Near him stood two members of parliament, engaged in audible converse. One of them said that the summer was over.

"Can't be," said the second, "it never began."

"I say, that's awfully good," said the first. "When you happen to think of a thing like that, why don't you write it down, and send it to one of the papers?"

The millionaire turned and fled. In the club he would clearly have no chance; he must descend the scale and try again. He sought out an oyster bar, and made talk with the business-like young man who owned the oysters for him. It seemed a good chance. The young man seemed so serious, so plain, so venal.

"Can't be," said the second, "it never began."

"I say, that's awfully good," said the first. "When you happen to think of a thing like that, why don't you write it down, and send it to one of the papers?"

that the summer's over," said the millionaire, as he slid one hand into the pocket that held his note case.

"It is, sir," said the man. There was a moment's pause, and the millionaire was full of hope. "Though, for that matter, you can't hardly say the summer ever began this year," said the young man.

The millionaire finished his oysters in stony silence and went out. The lever of the search was upon him. Somewhere in the great metropolis there must be somebody who would not make that fatal observation. He tried two policemen in quick succession. They were both good well-fed men, but they disqualified themselves for the millionaire's bounty. A newspaper boy and a tobacconist failed to pass the required test. A barmaid hesitated a little, but she made the customary response in the end. And still the millionaire struggled on.

Late in the afternoon he sat down on a seat in the park. He was depressed, terribly depressed. The air seemed to him to be laden with the nauseous gaiety of the dull people. Was there, then, no one in all London strong-minded enough to resist a cheap chance to show an almost worthless acuteness?

A man with the appearance of an elderly and unsuccessful clerk, sat down on the seat beside him. The millionaire determined to make one more attempt before relinquishing the attempt in despair. "Shan't be able to sit out like this much longer," said the millionaire. "I'm afraid the summer's over."

The elderly man smiled and shook his head. He said nothing. With feverish hands the millionaire produced the thousand-pound note and his own card. "Permit me," he said, "to offer you this trifle, and to assure you that you have fairly earned it."

The elderly man bowed low, put the note and card in his pocket, and drew out a pencil and slip of paper. He wrote on it, handed the slip to the millionaire, and walked away. The millionaire read:

"As you must have guessed, I am dumb. I know your reputation for eccentric munificence, and I thank you from my heart. I hope you did not misunderstand me when I shook my head just now. I did not mean to contradict you rudely, but only to imply that this year the summer had not really begun. You have done one of the noblest and kindest—"

But the millionaire read no further. The paper fell from his hands, and he dropped on the ground in a swoon.

He was never quite the same again. It is an open secret that his vast fortune has now been left by will to the nihilists with a request that they will devote particular attention to deaf and dumb institutes and to the offices of humorous papers.—Black and White, London.

Squeezing a Bore.

A New York clubman, whose reputation as a conceited and insufferable bore was a byword, was once attempting to impress a group of men as being a society pet. "What a hospitable fellow Blank is," he said, naming one of New York's cleverest men; "I dropped in on him the other night, and he and his wife fairly insisted that I stay for dinner. Such a time as I had getting away! Why, when I started to leave, they came right out in the hall and backed up against the front door." "After you'd gagged out?" sarcastically inquired one of his wearied listeners.

PILES, TETTER, BARBERS' ITCH.

Any skin disease completely eradicated. A sufferer literally covered is cleared off and permanently cured in 45 days' time—a new skin practically was grown—no pain—smarting or itching during the cure.

WE VOUCH FOR THIS

In the case of Mr. Charles Jacobs shown here, photographed in his diseased condition. (psoriasis, a species of eczema), he was almost entirely covered. The trouble started in three small spots and did not spread beyond this for eight years. Then it suddenly raged all over.

It raged more or less in this way for ten years, and was afterward entirely cleared away in about 6 weeks time by D. D. D. and no taint of the disease has appeared since—over two years ago.

We know this to be exactly as stated.

PEOPLE'S DRUG COMPANY
GEO. E. KING & CO.

This result can be accomplished with any skin affection. Barrels of blood medicine can do nothing for a skin disease. Nine out of ten manifestations in the skin are local, parasitic in nature and absolutely curable by this new prescription. D. D. D. is a clean liquid prescription sopped or atomized over the affected spots twice daily.

This preparation has our unqualified endorsement. We are recommending it with most excellent results. The cures already effected are having wide-spread influence in this section. If you have a skin affection—come to the store. It will be the means of making you a happier human being.
